**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

patentdocket@oblon.com

oblonpat@oblon.com

jgardner@oblon.com

### **DETAILED ACTION**

1. This office action is responsive to communication filed on February 22, 2008.

#### ***Response to Amendment***

2. The Amendment filed February 22, 2008 will not be entered because it raises new issues which would require further search and/or consideration. For instance, the amended claim 1 recites that said buffer memory is, "connected to output said image data only to said compression unit". It appears that Applicant has brought limitations previously found in claim 12 into claim 1. This amendment further limits claim 1, but additionally limits claims 2, 13 and 14, which depend from claim 1, but did not originally include the newly found limitation of claim 1. Therefore, amended claims 2, 13 and 14 are more specific than the original claims 2, 13 and 14 and would thus require further search and/or consideration. Claim 15 recites, "wherein said first and second buffer memories are connected to receive only said image data from said image processing unit and connected to output said image data only to said compression unit". It appears that Applicant has brought limitations previously found in claim 17 into claim 15. This amendment further limits claim 15, but additionally limits claims 16 and 18, which depend from claim 15, but did not originally include the newly found limitation of claim 15. Therefore, amended claims 16 and 18 are more specific than the original claims 16 and 18 and would thus require further search and/or consideration.

#### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALBERT H. CUTLER whose telephone number is (571)270-1460. The examiner can normally be reached on Mon-Thu (9:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ngoc-Yen Vu can be reached on (571)-272-7320. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
